FRED WYSE

Associate Warden

J. C. COWPERTHWAIT

Business Manager

HARRY C. TINSLEY

Chief of Corrections

CANON CITY, COLORADO

July 1, 1964

Dear Reader,

The following pages contain a "Story in Statistics" -- one which we hope will prove to be a guide and aid in your particular field of endeavor.

Complete statistical data on the Colorado State Penitentiary's population as of July 1, 1964 and a report on the commitments and releases from this institution during the fiscal year starting July 1, 1963 and ending June 30, 1964 are included in this manual.

Although a great deal of information and various statistics are presented, it is entirely possible that some interested person or agency might require a different type of statistic not listed in this report. If this is the case, the institution will gladly attempt to gather the data desired when requested to do so.

This statistical report shows a record population increase of 160 in a 12-month period. On June 30, 1963, there were 1,961 inmates at the institution compared with 2,121 on June 30, 1964. During the 1962-63 fiscal year, the population increased by 140.

Our growth for 1963-64 was four times higher than the considered yearly average of 40 inmates. This has, of course, created numerous problems in housing, security, training and work programs.

We have attempted to include in this report the types and categories of information that will present a clear picture of the inmate population and movement.

Between the lines and pages of statistical data is the unwritten story of the critical situations and difficulties resulting from a population figure that continues to climb upward.

Respectfully submitted,

COLORADO STATE PENITENTIARY

Harry C. Tinsley

COLORADO STATE PENITENTIARY SCHOOL PROGRESS REPORT: JULY 1, 1963 THRU JUNE 30, 1964

The present school was started in January 1955, Previous to that time any studying done by the inmate was on a self-help basis and no aid at all furnished by the state.

By 1958, the school had reached its capacity for our present quarters. The school has had an average enrollment of 115 students and 14 inmate teachers. Since then, besides these, there have been part time students numbering from 40-60 enrolled in the typing and mechanical drawing classes.

The school classes consist of the grades from the first through the twelfth. (This includes classes for illiterates and semi-illiterates). The following subjects have been taught for the past four years.

English	Phonetics	Spanish
Mathematics	Semantics	Geography
History	Biology	Typing
Spelling	American-	Mechanical Drawing
Science	Literature	Mental Health
Reading	Writing	Algebra

In June 1958, inmates were allowed to test for the G.E.D. test certificates. Since that time there have been 388 inmates take the G.E.D. test, 346 of these inmates have passed the test and have been issued a G.E.D. certificate by the State Department of Education. Before an inmate is allowed to take the test he is required to pass a California Achievement Test. (C.A.T.) (Grade level 9-14). He must attain an average grade of 11.0 or better on all three sections of the test. In the graduating class of 1964, 37 men of the 43 men tested will receive a G.E.D. certificate.

In June 1958, inmates were allowed to take tests for an eighth grade diploma. These tests are taken with the Stanford Achievement test. The inmate must take and receive an 8.0 on all phases of the test to be eligible for an eighth grade diploma. These diplomas are issued by the Canon City School District. In the graduating class of 1964, 14 inmates will receive grade school diplomas.

The above diplomas and G.E.D. certificates do not mention the institution and are the same as issued to any citizen of the State of Colorado.

Upon entering the institution all men are required to take a C.A.T. test. From July 1, 1963, to June 26, 1964, 94 inmates were tested, 17 men taking the 4-6 C.A.T. and attaining an average of 5.0; 54 men taking the 7-9 C.A.T. and attaining an average of 7.8; 23 men taking the 9-14 C.A.T. and attaining an average of 10.1. The combined average of the 94 men tested was 7.7.

During the school year 1957-1960, classes in French, Semantics and Music Study were added. A tape recorder and three dozen tapes were donated to the school this past two years. A series of lectures on Semantics were purchased from the University of Colorado tape library. The tape recorder is also used in the English and phonetics classes.

(SCHOOL PROGRESS REPORT CONTINUED)

During the school year 1959-60, we began a showing of 16 mm Educational films weekly. The films were borrowed from various agencies which maintain free libraries. During the school year 1961-62, 22 Educational films were shown in the school.

A full scale cell study was started in 1958. The correspondence booklets were typed and mimeographed by inmates in the school. At present we have 20 different booklets covering grade levels of English, Mathemantics, Letter Writing and Algebra. Other courses will be introduced as quickly as possible. These cell study courses are patterned after the International Correspondence School courses.

There were 63 inmates enrolled in the cell study courses during the past year. They scored average grades. When they have any problems that they are stumped on they are instructed to come to the school and have them explained.

At the present time we do not have the facilities or funds for inmates to take college courses. However, during the past six years there have been approximately 260 inmates take college courses. These courses were paid for by individual inmates and no record is kept of them in the CSP school. These courses have been taken from the University of Colorado, ICS and several other schools with extension divisions. Also there have been a number of inmates studying theology by Correspondence.

In the latter part of 1962 we were asked by the State Department of Education to organize a Braille transcribing group at this institution. This was to assist in a program to integrate children who are blind into public schools. In January of 1963 we started on a training program through the Red Cross. At the present time we have five certified transcribers who have passed their test with the Library of Congress. During this time approximately eighty volumes of Braille have been transcribed by this group. These range in text from beginning reading books to college Zoology. There has been a mathemantics book transcribed into Braille. This requires learning a different code. It is our hope at this time to be able to expand this group.

The Behavioral Adjustment Research Society class, composed of voluntary inmate members, meets weekly at the institution school to study their common problems of social exile and a way of life conducive to a better relationship between themselves and their fellow man. Sponsors are Officer Ira Sanger; School Supervisor and Officer Elmer Lockhart; Advisor: Prison Psychologist Mr. George Levy.

During the last year. two Dale Carnegie classes have graduated a total of 45 graduates. Classes were held at the Officers! Training School every Saturday for fourteen weeks between the hours of 7:30 A.M. and 11:30 A.M.

COLORADO STATE PENITENTIARY

VOCATIONAL EDUCATION DIVISION

A new Vocational Supervisor, Mr. Dean R. Ewing, was hired to replace Mr. William Preston who passed away in July, 1963.

During the current fiscal year, the four full time Student Departments, Welding; Auto Mechanics; Auto Body Repair; and Machine Shop, that were in operation prior to this year, have been improved and increased in size and quality. A total of ninety-five (95) students have graduated from these departments. An Advisory Committee of civilian leaders in each area has been established and is functioning.

Every graduate from each of these departments has been paroled and records from the Parole Department indicate 60% of the trainees are on the job for which they were trained and receiving average or above ratings by their employers. Only 5% have been returned as parole violators.

Additional full time student departments have been established in Barbering, with Mr. William E. Thompson as instructor; and Appliance and Electric Motor Repair with Mr. Edwin Woods, Sr. as instructor. Each of these departments is fully accredited by the State Board for Vocational Education and the State Department of Education.

On-the-job training departments were established in the areas of Dairy, Farm Mechanics, Slaughterhouse, and Farm Training. Each of these departments is fully accredited and in operation.

Current plans are underway to add four (4) additional on-the-job training programs (apprentice type) to the present curriculum as soon as financial arrangements can be made.
